schönherr

montenegro desk

Q2/2013

montenegro

schoenherr is the largest law firm currently present on the Montenegrin market and has established its Montenegro Country Desk, principally, to facilitate the needs of foreign clients interested in investing in Montenegro. Thus, schoenherr's Montenegro Country Desk services predominantly inbound investment flows. However, it should be noted that schoenherr via its Montenegro Country Desk is currently advising the Government of Montenegro in relation to the most important privatisation process ever to take place in Montenegro.

services

The Montenegro Country Desk enables schoenherr to provide its clients in Montenegro with services such as standard legal advice in respect of corporate law issues (incorporation of limited liability companies, joint-stock companies, representative offices), advice on high-end complex transactions in the fields of M&A, banking & finance, competition, real estate, IP, litigation and employment matters and legal support in connection with day-to-day business.
