

Schoenherr and CONCORDIA: Proud partners

schoenherr

Schoenherr and CONCORDIA have worked together for years to help children and young people in Europe's poorest regions have a better future.

In this partnership, Schoenherr has generously supported CONCORDIA on several occasions.

➔ Financial support for CONCORDIA programmes (primary school, emergency aid)

➔ Providing pro bono legal advice to CONCORDIA, supporting its social and educational projects in Romania, Moldova, Austria, Bulgaria and Kosovo with legal services in areas such as corporate law, real estate, employment law, contractual dealings, dispute resolution, data protection, intellectual property, tax law, etc. Schoenherr's advice has supported CONCORDIA in carrying out its day-to-day activities, as well as in developing and implementing new social and educational projects.

Our goal: to give children wings!

As an international, independent non-governmental organisation, CONCORDIA has been committed to supporting disadvantaged people on their way to an independent and self-determined life for more than 30 years. CONCORDIA fights to ensure that the children and young people in our care can grow up protected and safe. We do our best to ensure they develop healthily and freely, and we work in our project countries to sustainably improve their living conditions.

We take the children and adolescents in our care by the hand and accompany them part of their way until they recognise their ability to assume responsibility for their own lives. The aim of CONCORDIA is to bring hope to people living in impoverished parts of Eastern Europe. We provide help to break the vicious circle of poverty and increase the chances of a better life. Because every human being without exception has the right to a self-determined life.

Schoenherr will continue to support this partnership by providing pro bono legal services and coordinated communication initiatives, and by participating in charity events for the benefit of CONCORDIA as well as joint trips to the CONCORDIA project countries.
