

technology and digitalisation

schoenherr attorneys at law

Schoenherr is a leading full service law firm in Central and Eastern Europe. About 300 professionals service national and international clients from our offices in Austria, Belgium/EU, and throughout the entire CEE region. Operating in a rapidly evolving environment, we are a dynamic and innovative firm with an effective blend of experienced lawyers and young talent. As one of the first international law firms to move into CEE, we have grown to be one of the largest firms in the region. Our offices and country desks provide comprehensive coverage of CEE, allowing us to offer solutions that perfectly fit the given industry, jurisdiction and company.

technology & digitalisation

Digitalisation as well as new business models and applications driven by technologies, face many legal challenges. However, very rarely do the affected laws and regulations explicitly govern the intended (digital) business model or application (or explicitly provide for a respective carve-out from a regulation's application). In order to meet the legal demands of tomorrow's technologies today, our team focuses on new business models and applications based on existing laws and regulations, while also supporting our transaction practices.

The technology & digitalisation group provides 360° legal advice for all technology & digitalisation matters. The combined knowledge of our legal experts ensures an optimised understanding of our clients' needs.

our services

The scope of our services is constantly developing in accordance with technical developments and our clients' challenges. We provide legal backup across the board. We are most active in the following areas (in alphabetical order):

- artificial intelligence (AI) / machine learning
- autonomous driving, drones
- blockchain / distributed ledger technologies
- cyber security and data security
- domain names
- e-commerce / platforms, websites
- general terms and condition, terms of use and website conditions
- initial coin offerings (ICO) and security token offerings (STO)
- internet domains
- internet of things / machine to machine
- m&a / technology transactions
- mobile applications, mobile games, online gambling
- outsourcing & cloud services
- privacy & big data
- protection of know-how, technology and other intellectual properties
- social media, new media
- software licensing, software-as-a-service (SaaS)
- start-ups & venture capital
- tokenisation of assets
- tech-business like fintech, insurtech, healthtech, proptech
- telecommunication

The lawyers are very thoughtful and considerate, and provide solutions.

Client, Chambers Europe
